It is now proposed to shift the toll bar nearly 11 miles towards the frontier to a place only 4 miles from Atk, for two reasons (1) That the present situation is inconvenient to the agriculturists in the vicinity (2) That the toll gate does not catch the traffic from Jalavadi to Satyamanga (British Village) and back. Regarding (1) it is submitted that the inconvenience will be reduced to a minimum if the District Board compounds with the agriculturists for a nominal sum annually in lieu of their paying tolls every day. (There is provision for this in the L to Rules) As regards (2) the loss to the District Board is not great but inevitable unless the toll bar is located near the frontier which is likely to be objected to by the Residency Attikal pur which is far in the interior was pronounced unsuited for the purpose on account of its loneliness. The proposed site near Punagur is reported to be a malarial place in the midst of jungle country and it is feared that Consequently the local men will not be eager to take up the Contract of collecting tolls. It is further apprehended that the British authorities will take objection for shifting the toll bar to a place
